journal of **dairy research**

Contents Volume 77

No. 1 (February 2010)

Influence of milk yield, stage of lactation and body condition on dairy cattle lying behaviour measured using an automated activity monitoring sensor **JM Bewley, RE Boyce, J Hockin, L Munksgaard, SD Eicher, ME Einstein and MM Schutz** 1

Lactobacillus plantarum bacteriophages isolated from Kefir grains: phenotypic and molecular characterization **GL De Antoni, M Zago, O Vasek, G Giraffa, D Carminati, MB Marcó, J Reinheimer and V Suárez** 7

Milk emission and udder health status in primiparous dairy cows during lactation **A Tamburini, L Bava, R Piccinini, A Zecconi, M Zucali and A Sandrucci** 13

Antioxidant activity, bioactive polyphenols in Mexican goats' milk cheeses on summer grazing **HM Cuchillo, DC Puga, OA Navarro and RF Pérez-Gil** 20

Retinol binding protein 4 in dairy cows: its presence in colostrum and alteration in plasma during fasting, inflammation and the peripartum period **MA Abd Eldaim, A Kamikawa, MM Soliman, MM Ahmed, Y Okamatsu-Ogura, A Terao, T Miyamoto and K Kimura** 27

Concentration of penicillin G in mammary tissue and secretion of end-term dairy heifers following systemic prepartum administration of penethamate hydriodide **P Passchyn, S Piepers, E Schmitt-Van de Leemput, C Guidarini and S De Vliegher** 33

Association of polymorphisms in exons 2 and 10 of the insulin-like growth factor 2 (*IGF2*) gene with milk production traits in Polish Holstein-Friesian cattle **E Bagnicka, E Siadkowska, N Strzałkowska, B Żelazowska, K Flisikowski, J Krzyżewski and L Zwierzchowski** 37

Comparative study of heat stability of camel and bovine apo and holo α-lactalbumin **SA Atri, AA Saboury, R Yousefi, M Dalgalarrondo, J-M Chobert, T Haertlé and AA Moosavi-Movahedi** 43

Active coating to prolong the shelf life of Fior di Latte cheese **MA Del Nobile, D Gammariello, S Di Guilio and A Conte** 50

Divergence at the casein haplotypes in dairy and meat goat breeds **J Küpper, S Chessa, D Rignanese, A Caroli and G Erhardt** 56

Correlation between mastitis occurrence and the count of microorganisms in bulk raw milk of bovine dairy herds in four selective culture media **LIM Souto, CY Minagawa, EO Telles, MA Garbuglio, M Amaku, PA Melville, RA Dias, ST Sakata and NR Benites** 63

Casein retention in curd and loss of casein into whey at chymosin-induced coagulation of milk **E Hallén, A Lundén, T Allmere and A Andrén** 71

Direct versus indirect effects of social rank, maternal weight, body condition and age on milk production in Iberian red deer (*Cervus elaphus hispanicus*) **T Landete-Castillejos, F Ceacero, AJ García, JA Estevez and L Gallego** 77

Rapid method for cholesterol analysis in bovine milk and options for applications **E Viturro, HH Meyer, C Gissel and M Kaske** 85

Evaluation of increased milking frequency as an additional treatment for cows with clinical mastitis **V Kroemker, C Zinke, J-H Paduch, D Klocke, A Reimann and G Eller** 90

Comparison of two methods of assessing dairy cow body condition score **JM Bewley, RE Boyce, DJ Roberts, MP Coffey and MM Schutz** 95

Association of milk yield and infection status at dry-off with intramammary infections at subsequent calving **KA Newman, PJ Rajala-Schultz, FJ DeGraves and J Lakritz** 99

The role of lactate dehydrogenase, alkaline phosphatase and aspartate aminotransferase in the diagnosis of subclinical intramammary infections in dairy sheep and goats **PD Katsoulos, G Christodoulopoulos, A Minas, MA Karatzia, K Pourliotis and SK Kritas** 107

Comparison of conventional and molecular methods for the routine confirmation of *Listeria monocytogenes* in milk products produced domestically in Croatia **J Frece, K Markov, D Čvek, K Kolarec and F Delaš** 112

Comparison of antioxidant defence parameters in colostrum and milk between Berrichon du Cher ewes and Uhrusk ewes **J Lipko-Przybylska, E Albera and M Kankofer** 117

Effects of acarbose on ruminal fermentation, blood metabolites and microbial profile involved in ruminal acidosis in lactating cows fed a high-carbohydrate ration **M Blanch, S Calsamiglia, M Devant and A Bach** 123

No. 2 (May 2010)

Characterization of immune-active peptides obtained from milk fermented by *Lactobacillus helveticus* **A Tellez, M Corredig, L Brovka and MW Griffiths** 129

Evaluation of different approaches for the estimation of daily yield from single milk testing scheme in cattle **J Jenko, T Perpar, G Gorjanc and D Babnik** 137

Study on the combined effects of essential oils on microbiological quality of Fior di Latte cheese **D Gammariello, A Conte, M Attanasio and MA Del Nobile** 144

Milk production, peripartal liver triglyceride concentration and plasma metabolites of dairy cows fed diets supplemented with calcium soaps or hydrogenated triglycerides of palm oil **RG Karcagi, T Gaál, P Ribiczey, G Huszenicza and F Husvéth** 151

Relationship between virulence factor genes in bovine *Staphylococcus aureus* subclinical mastitis isolates and binding to anti-adhesin antibodies **M Scarpa, R Piccinini, P Brun, A Grillo, G Palù, C Mengoli, V Daprà, I Castagliuolo and A Zecconi** 159

Detection of mastitis and its stage of progression by automatic milking systems using artificial neural networks **Z Sun, S Samarasinghe and J Jago** 168

Growth inhibitory effects of casein hydrolysates on human cancer cell lines **M Phelan, SA Aherne, D O'Sullivan, RJ FitzGerald and NM O'Brien** 176

Simultaneous pasteurization and homogenization of human milk by combining heat and ultrasound: effect on milk quality **C Czank, K Simmer and PE Hartmann** 183

Genetic variation at the goat hormone-sensitive lipase (*LIPE*) gene and its association with milk yield and composition **A Zidi, VM Fernández-Cabanás, J Carrizosa, J Jordana, B Urrutia, O Polvillo, P González-Redondo, D Gallardo, M Amills and JM Serradilla** 190

Growth hormone alters lipid composition and increases the abundance of casein and lactalbumin mRNA in the MAC-T cell line **TL Johnson, BAS Fujimoto, R Jiménez-Flores and DG Peterson** 199

Investigation of mammary blood flow changes by transrectal colour Doppler sonography in an *Escherichia coli* mastitis model **A Potapow, C Sauter-Louis, S Schmauder, J Friker, CP Nautrup, D Mehne, W Petzl and H Zerbe** 205

Expression and function of leptin and its receptor in dairy goat mammary gland **M Li, Q Li and X Gao** 213

Specific IgG activity against diarrheagenic bacteria in bovine immune milk and effect of pH on its antigen-binding activity upon heating **W Gao, L Chen, LB Xu and XH Huang** 220

Improving the fatty acid profile of dairy cow milk by combining grazing with feeding of total mixed ration **E Morales-Almaráz, A Soldado, A González, A Martínez-Fernández, I Domínguez-Vara, B del la Roza-Delgado and F Vicente** 225

Efficacy of a teat dip containing the bacteriocin lacticin 3147 to eliminate Gram-positive pathogens associated with bovine mastitis **K Klostermann, F Crispie, J Flynn, WJ Meaney, RP Ross and C Hill** 231

Effect of forage:concentrate ratio on the quality of ewe's milk, especially on milk fat globules characteristics and fatty acids composition **M Martini, GB Liponi and F Salari** 239

Effect of CSN1S1 genotype and its interaction with diet energy level on milk production and quality in Girgentana goats fed ad libitum **RI Pagano, P Pennisi, B Valenti, M Lanza, A Di Trana, P Di Gregori, A De Angelis and M Avondo** 245

Genetic parameters for stayability in Murrah Buffalo **PM Galeazzi, MEZ Mercadante, JAIIV Silva, RR Aspilcueta-Borquis, GMF Camargo and H Tonhati** 252

No. 3 (August 2010)

The influence of milk composition on pH and calcium activity measured *in situ* during heat treatment of reconstituted skim milk **J Chandrapala, I McKinnon, MA Augustin and P Udabage** 257

Pategrás cheese as a suitable carrier for six probiotic cultures **C Bergamini, E Hynes, C Meinardi, V Suárez, A Quiberoni and C Zalazar** 265

Oxidative stress indicators and metabolic adaptations in response to the omission of the dry period in dairy cows **R Mantovani, S Sgorlon, L Marinelli, L Bailoni, G Bittante and G Gabai** 273

Cheese liking and consumer willingness to pay as affected by information about organic production **F Napolitano, A Braghieri, E Piasentier, S Favotto, S Naspetti and F Zanoli** 280

The type of cheese curds determined the colouring capacity of *Brevibacterium* and *Arthrobacter species* **M-N Leclercq-Perlat and H-E Spinnler** 287

Additive effects of *trans*-10, *cis*-12 conjugated linoleic acid and propionic acid on milk fat content and composition in dairy cows **G Maxin, F Glasser and H Rulquin** 295

Relative impact of α-tocopherol, copper and fatty acid composition on the occurence of oxidized milk flavour **J Juhlin, F Fikse, A Lundén, J Pickova and S Agenäs** 302

Blood and milk immune and inflammatory profiles in periparturient dairy cows showing a different liver activity index **E Trevisi, A Zecconi, G Bertoni and R Piccinini** 310

Effect of coagulase-negative staphylococci on somatic cell count in Dutch dairy herds **O Sampimon, BHP van den Borne, I Santman-Berends, HW Barkema and T Lam** 318

Recovery of *Cronobacter sakazakii* from environmental surface swabbing materials using a 5-h enrichment procedure **D Lindsay, B Somerton, B Hill and O Shrubb** 325

Transfer of linoleic and linolenic acid from feed to milk in cows fed isoenergetic diets differing in proportion and origin of concentrates and roughages **R Khiaosa-ard, F Klevenhusen, CR Soliva, M Kreuzer and F Leiber** 331

Effect of grazing fresh legumes or feeding silage on fatty acids and enzymes involved in the synthesis of milk fat in dairy cows **L Wiking, PK Theil, JH Nielsen and MT Sørensen** 337

Differences in sheep and goats milk fatty acid profile between conventional and organic farming systems **E Tsiplakou, V Kotrotsios, I Hadjigeorgiou and G Zervas** 343

Response surface optimization of the cultivation conditions and medium components for the production of folate by *Streptococcus thermophilus* **R Iyer, SK Tomar and AK Singh** 350

Isolation of lactoperoxidase using different cation exchange resins by batch and column procedures **LWT Fweja, MJ Lewis and AS Grandison** 357

Evolution of the mammary capillary network and carbonic anhydrase activity throughout lactation and during somatotropin treatment in goats **MO Nielsen, K Cvek and K Dahlborn** 368

Effect of subacute ruminal acidosis on milk fat concentration, yield and fatty acid profile of dairy cows receiving soybean oil **O AlZahal, MM Or-Rashid, SL Greenwood and BW McBride** 376

No. 4 (November 2010)

Influence of milk quality and production protocol on proteolysis and lipolysis in Monti Dauni Meridionali Caciocavallo cheese **M Albenzio, A Santillo, DE Russo, M Caroprese, R Marino and A Sevi** 385

Hygienic and health characteristics of donkey milk during a follow-up study **R Pilla, V Daprà, A Zecconi and R Piccinini** 392

Composition of poorly and non-coagulating bovine milk and effect of calcium addition **E Hallén, A Lundén, A-M Tyrisevä, M Westerlind and A Andrén** 398

Assessment of epithelial cells' immune and inflammatory response to *Staphylococcus aureus* when exposed to a macrolide **M Mazzilli and A Zecconi** 404

Influenza virus A subtype H1N1 is inhibited by methylated β-lactoglobulin **M Sitohy, M Scanu, B Besse, C Mollat, S Billaudel, T Haertlé and J-M Chobert** 411

Measurement of thyroid hormones in donkey (*Equus asinus*) blood and milk: validation of ELISA kits and evaluation of sample collection, handling and storage **L Todini, A Malfatti, E Salimei and F Fantuz** 419

Relationship between growth behaviour, micro and macroscopic morphologies and freezing sensitivity of the ripening starter *Geotrichum candidum* is strain specific and mostly related to the morphotypes: the arthrospores/hyphae parameter **G Missous, T Bouachanh, G Launay, M Guéguen, V Dieuleveax and J-M Panoff** 425

Effects of divergent Holstein-Friesian strain and diet on diurnal patterns of plasma metabolites and hormones **S Meier, ES Kolver, GA Verkerk and JR Roche** 432

Fluorometric determination of uric acid in bovine milk **T Larsen and KM Moyes** 438

Characterization of lactoferrin oil-in-water emulsions and their stability in recombined milk **A Acero-Lopez, P Schell, M Corredig and M Alexander** 445

Immune response of bovine milk somatic cells to endotoxin in healthy quarters with normal and very low cell counts **O Wellnitz, A Baumert, M Saudenowa and RM Bruckmaier** 452

Efficacy of homeopathic and antibiotic treatment strategies in cases of mild and moderate bovine clinical mastitis **C Werner, A Sobiraj and A Sundrum** 460

Teat anatomy affects requirements for udder preparation in Mediterranean buffaloes **S Ambord, MH Stoffel and RM Bruckmaier** 468

Concentrations of bovine lactoferrin and citrate in milk during experimental endotoxin mastitis in early *versus* late-lactating dairy cows **P Hyvönen, T Haarahiltunen, T Lehtolainen, J Heikkinen, R Isomäki and S Pyörälä** 474

Association of production factors with milk IgA and IgM concentrations in normal lactating cows **S Zhao, C Zhang, J Wang, D Bu, G Liu and L Zhou** 481

In situ generation of milk protein-derived peptides in drying-off cows **CH Ho, CJ Chang, WB Liu, HC Peh, SE Chen, HY Chen, TH Ho, MT Chen and H Nagahata** 487

Rapid and direct quantitative detection of viable bifidobacteria in probiotic yogurt by combination of ethidium monoazide and real-time PCR using a molecular beacon approach **XC Meng, R Pang and C Wang** 498
